Film Guide for Music Educators

A valuable new publication scheduled to be ready in the fall of 1961, *Film Guide for Music Educators*, is announced by the Music Educators National Conference. Since the earlier MENC publications in this area, *Handbook on 16mm Films for Music Education* and *An Alphabetical Listing of 16mm Music Films*, can no longer be secured, this forthcoming book should fill a real need.

An outstanding feature of the work is the inclusion of many fine music films and kinescopes which were originally prepared for television broadcast and are now available for classroom use. A small list of filmstrips on music will be included and a classified index will add to the usefulness of the book. Another section of the publication is to be devoted to a selected list of 16mm film libraries in all parts of the country.

Donald J. Shetler of Western Reserve University has served as chairman of the group of music educators who selected and evaluated the films.

Members of the MENC will receive a notice with an order form when the book is ready for distribution.
